Replacing Schedule R Sheet 1

which was filed November 24, 2020

No supplement or separate understanding
shall modify the tariff as shown hereon.

Sheet 1 of 3 Sheets

**RESIDENTIAL SERVICE
Schedule R**

AVAILABILITY

For electric service to a single-occupancy private residence:

Single-phase electric service for residential customers where the dwelling unit contains kitchen facilities, sleeping facilities, living facilities and permanent provisions for sanitation. This rate schedule is restricted to residential electric service on the same premise as the customer's dwelling unit and used principally for domestic purposes for a customer's household, home, well pump, barn, machine shed, detached garage, home workshop, or recreational vehicles whose meter is not connected to a single dwelling unit. This schedule is not applicable for crop irrigation, commercial dairies, hatcheries, feed lots, feed mills or any other commercial enterprise. Customers currently served with separately metered space heat will be served under the single meter heat rate (Rate 2). For billing purposes, usage from separately metered installations prior to December 21, 2023 will be combined by the Company and treated as a single meter. The Company reserves the right in all instances to designate whether a Customer is or is not a residential customer.

Three-phase electric service for the operation of cooling and air conditioning equipment for domestic use. For three-phase, built-up central plant air conditioning systems of at least 25 tons single-unit cooling capacity, service is available under this schedule only if permitted by the Company, with the Company exercising sole discretion in the case of each Customer. The availability of three-phase Residential Service for such air conditioning systems also shall be contingent upon the Customer paying the full cost of the required three-phase line extension prior to construction of the extension. For all other three-phase air conditioning equipment, service is limited to premises served under this schedule since January 10, 1966. Whenever three-phase equipment of less than 25 tons cooling capacity requires replacement because of failure or other reason, the Customer shall replace it with single-phase equipment if required by the Company.

Single-phase electric service through a single or separately metered circuit for space heating purposes in the residence. Single metered electric space heating equipment shall be of a size and design sufficient to heat the entire residence. Electric space heating equipment may be supplemented by wood burning fireplaces, wood burning stoves, active or passive solar heating, and used in conjunction with fossil fuels where the combination of energy sources results in a net economic benefit to the Customer. Electric space heating equipment shall be permanently installed and thermostatically controlled. In addition to the electric space heating equipment, only permanently installed all-electric single-phase equipment used to cool or air condition the same space which is electrically heated may be connected to the separately metered circuit.

Temporary or seasonal service will not be supplied under this schedule.

**RESIDENTIAL SERVICE
Schedule R****TERM OF CONTRACT**

Contracts under this schedule shall be for a period of not less than one year from the effective date thereof.

RATE

Single-phase kWh and three-phase kWh will be cumulated for billing under this schedule.

1. RESIDENTIAL GENERAL USE – ONE METER: 2RS1A

For general residential use including electric water heating equipment not connected through a separately metered circuit, the kWh shall be billed as follows:

A.	Customer Charge (Per Month)	\$14.25	
B.	Energy Charge (Per kWh):	Summer	Winter
		<u>Season</u>	<u>Season</u>
	First 1000 kWh per month	\$0.10021	\$0.07735
	Over 1000 kWh per month	\$0.10021	\$0.07735

2. RESIDENTIAL GENERAL USE AND SPACE HEAT - ONE METER: 2RS6A (**Frozen**)When the customer has electric space heating equipment for the residence and the equipment is of a size and design approved by the Company and not connected through a separately metered

circuit, the kWh shall be billed as follows (customer may also have electric water heating equipment, of a size and design approved by the Company, under this option). The space heat rate is not available to new customers after December 21, 2023:

A.	Customer Charge (Per Month)	\$14.25

	<u>Summer Season</u>	<u>Winter Season</u>
B. Energy Charge (Per kWh):		
First 1000 kWh per month	\$0.10021	\$0.06966
Over 1000 kWh per month	\$0.10021	\$0.06123

MINIMUM Monthly Bill

1. Customer Charge; plus
2. Any additional charges for line extensions, if applicable.

SUMMER AND WINTER SEASONS

For determination of Seasonal periods, the four (4) summer months shall be defined as the four (4) monthly billing periods of June through September. The eight (8) winter months shall be defined as the eight (8) monthly billing periods of October through May. Customer bills for meter reading periods including one or more days in both seasons will reflect the number of days in each season.

ADJUSTMENTS AND SURCHARGES

The rates hereunder are subject to adjustment as provided in the following schedules:

- Energy Cost Adjustment (ECA)
- Energy Efficiency Rider (EER)
- Property Tax Surcharge (PTS)
- Tax Adjustment (TA)
- Transmission Delivery Charge (TDC)

REGULATIONS
