

Custom Incentives

Evergy Custom Incentives are paid based on the amount of your project's energy savings and provide solutions tailored to your business. Pre-approval is required, so apply before purchasing or installing equipment in order to be eligible to receive an incentive. Energy efficiency upgrades eligible for Custom Incentives include:

Incentive Category	Incentive (per kWh saved)	Common Upgrades
Building Envelope	20¢	Insulation Above Code, Windows
Compressed Air	12¢	Compressed Air Optimization or Upgrades
Cooling ^{1,2}	35¢	Comfort Cooling Chiller Replacement, Heat Pump, CRAC Unit
Electric Heating ^{1,3}	5¢	Heat Pump (heating), Heating Recovery Units (heating), Boiler, Furnace
Food Services	9¢	Kitchen Demand Ventilation Controls
HVAC ^{1,4}	18¢	Variable Refrigerant Flow (VRF) Systems, Energy Recovery Ventilators (ERV), Cooling Tower Replacements, Heating Recovery Units, and DOAS
HVAC Controls Optimization with Peak Demand ¹ Reduction	14¢	Chiller Plant Optimization, Air Optimization/Balancing, Building Optimization, CO Monitoring (Parking Garages), Energy Management System
HVAC Controls Optimization without Peak Demand Reduction ¹	7¢	Economizers, Programmable Thermostats, Setback
Exterior Lighting with Peak Demand Reduction ¹	8¢	Efficient Exterior Lighting Operating 24/7
Exterior Lighting without Peak Demand Reduction ¹	5¢	Efficient Exterior Lighting Operating Dusk to Dawn
Interior Lighting	8¢	Efficient Interior Lighting Redesign
Interior Lighting Controls	7¢	Interior Lighting Controls
Miscellaneous	8¢	High Frequency Chargers, Computer Power Management Software, Advanced Power Strips
Motors & Drives	12¢	Variable Speed Drives for Pumps or Fans, Motor Drives, Premium Efficiency Motors, Electronically Commutated Motor (ECM)
Process Optimization	16¢	Process Cooling Chiller Replacement, Injection Molding Machines, Use of Mechanical Agitators instead of Blowers
Refrigeration	8¢	Freezer and/or Refrigerator Insulation
Water Heating	9¢	Heat Pump Water Heaters, Pipe Wrap or Insulation

¹ Evergy's peak demand period is 4:00pm – 6:00pm on weekdays when daily maximum dry bulb outdoor air temperature is ≥ 95°F from June to August, excluding holidays.

² Peak load coincides with Summer peak demand period.

³ Peak load coincides with Winter peak demand period.

⁴ Peak load coincides with both Summer and Winter peak demand periods.

Get Started Saving

Don't see your upgrade on the list above? If it saves energy, chances are it qualifies for an incentive. Contact your preferred contractor, Trade Ally or Business Development Representative below, call (844) 687-0229 or email businessrebates@evergy.com for more information on all available incentives.
